PROPERTY DETAILS

This, approximately 5,000 sq ft home, is waiting for you to finish it according to your taste and your standards. This can be, really, a grand family home whose idea is that grown children have their own bedroom suites down an open-air hallway so they can listen to their music and

do their thing without bothering the rest of the residents. The main area of the home with its high ceiling has provisions for kitchen , dining room, media room and office. The master suite, down an open-air hallway, as well, is very spacious with his and hers walking closets and a bath area with shower, jacuzzi space and his and hers wash basin areas. Included in the plans are large laundry room and a storage/closet facility. Provision for pool and a 3 car garage is included in the plans which are available. The property is just about an acre in size and the general area is zoned as multi family so you could turn this property to an income producing development if you wish. In this unfinished stage of this structure you may live there with a little sacrifice of life's certain luxuries until completion.
